

Product Name	Stock-Code	List Price £	Images (not to scale)	Description
<p>A range of bespoke brackets, designed and 3D-printed in tough fire-retardent polymer resin - all in-house at 2B. Designed to fit under ceilings, into corners, or onto walls and other surfaces to facilitate fixed, user-defined vertical or horizontal loudspeaker offset angles - so that your K-array loudspeakers point exactly where you need them to. Very discreet, each bracket can be supplied raw and unpainted, or in any standard RAL colour. Sized to match each loudspeaker's profile, for maximum "invisibility". Many of the wall, flat and wedge brackets are almost entirely hidden from view, once the loudspeaker has been fitted. Each bracket incorporates a channel through which the loudspeaker cable can be discreetly routed.</p> <p>SPECIAL FINISHES: We can also supply brackets in special finishes to exactly match their backgrounds. To price anything out-of-the-ordinary, please contact us.</p>				
<p>Designing Your Bespoke Bracket for more information, see: https://2b-heard.co.uk/custom-accessories</p>				
Variations Design Time	2B-BDES	100.00	<p><i>A one-off design-cost, levied for each variation on each model of bracket shown below. If all of the brackets ordered are the same model and have the same horizontal and vertical offset angles, then this cost is charged just once for the entire batch. Should individual brackets require differing offsets, the Design-Cost is applied to each variation of each model - to enable us to prepare the relevant CAD for the 3D printer.</i></p>	
<p>Ceiling-Mounts - Discreet 'Z'-shaped brackets for ceiling-mounting K-array loudspeakers at client-specified vertical offset angles and flat-plates for mounting loudspeakers flush into ceilings</p>				
Ceiling-Mount, KZ1 Unpainted	2B-K-CM KZ1	37.00		<p>Ceiling-mount for Lyzard KZ1: 57mm x 42mm x 21mm @10g</p> <p>Removal of KZ1's front grille reveals a pair of mounting holes through which the loudspeaker can be fixed to the mount with a UNI 6955 type 'C' 2.9mm countersunk tapping screw. The complete assembly is then fitted to the ceiling.</p> <p>When ordering, please specify: * Horizontal pan angle (if necessary - for instance, if mount itself cannot be positioned at required angle) * Vertical tilt angle * Colour & Gloss percentage (if ordering the RAL option)</p>
Ceiling-Mount, KZ1 Black	2B-K-CM KZ1B	80.00		
Ceiling-Mount, KZ1 White	2B-K-CM KZ1W	80.00		
Ceiling-Mount, KZ1 RAL	2B-K-CM KZ1X	80.00		
Ceiling-Mount, KZ14 Unpainted	2B-K-CM KZ14	51.00		<p>Ceiling-mount for Lyzard KZ14: 100mm x 70mm x 20mm @ 22g</p> <p>Removal of KZ14's front grille reveals one mounting hole through which the loudspeaker can be fixed to the mount with a UNI 6955 type 'C' 2.9mm countersunk tapping screw. The other end is held securely in-place by the mount's integral retaining-lug. The complete assembly is then fitted to the ceiling.</p> <p>When ordering, please specify: * Horizontal pan angle (if necessary - for instance, if mount itself cannot be positioned at required angle) * Vertical tilt angle * Colour & Gloss percentage (if ordering the RAL option)</p>
Ceiling-Mount, KZ14 Black	2B-K-CM KZ14B	114.00

<p>Pendant-Mounts - for hanging KT2-series loudspeakers from above</p>				
Pendant-Mount, KT2 Unpainted	2B-K-PM KT2	73.00		<p>Pendant-mount For Tornado KT2 and KT2L: 70mm Ø x 70mm @ 30g</p> <p>KT2 & KT2L are supplied with a fitted metal surface-mount bracket. This can be replaced with our Pendant-mount, enabling the loudspeaker to be suspended on its cable over counters, tables etc to place sound exactly where you need it. The mount fits over the loudspeaker and is held in-place with two key-stone lugs, that slide into place. A grub-crew (supplied) is used to secure the supporting cable. Using the Pendant-mount, a KT2L's integral RGB LEDs can also be used for overhead-illumination of discreet areas.</p> <p>When ordering, please specify: * Colour & Gloss percentage (if ordering the RAL option)</p>
Pendant-Mount, KT2 Black	2B-K-PM KT2B	173.00		
Pendant-Mount, KT2 White	2B-K-PM KT2W	173.00		
Pendant-Mount, KT2 RAL	2B-K-PM KT2X	173.00		
<p>Surface-Mounts - for mounting K-array loudspeakers to horizontal surfaces at client-specified vertical offset angles.</p>				
Surface-Mount, KZ14 Unpainted	2B-K-SM KZ14	51.00		<p>Secures Lizard KZ14 to a horizontal surface: 125mm x 39mm x 22mm @ 15g</p> <p>Removal of KZ14's front grille reveals one mounting hole. Terminate the loudspeaker cable to the KZ14, fit the terminals end of the 'speaker onto the mount's top retaining-lug, then push the 'speaker onto the mount so that the mounting's lower lug fits into the 'speaker's screw hole. Screw a UNI 6955 type 'C' 2.9mm countersunk tapping screw through the mounting hole - the lug will expand to hold the loudspeaker in-place. The completed assembly can then be fitted to the horizontal surface.</p> <p>When ordering, please specify: * Horizontal pan angle (if necessary - for instance, if mount itself cannot be positioned at required angle) * Vertical tilt angle * Colour & Gloss percentage (if ordering the RAL option)</p>

Product Name	Stock-Code	List Price £	Images (not to scale)	Description
Polymer 3D-Printed Brackets Demonstration / Evaluation kit				
K-Bracket Kit	2B-K-BKIT	350.00		<p>Sales-Demonstration kit of 6 x unpainted mounts, comprising one each of:</p> <p>Ceiling mounts: KZ1 & KZ14 Pendant mount: KT2 / KT2L Surface mount: KZ1 Wedge mounts: KZ14 & KV25</p>
Wall-Brackets in heavy-duty steel - for KK, KP & KY series loudspeakers - featuring on-site 180° horizontal and ±10° vertical adjustments				
Wall Bracket, KK, KP & KY Black	2B-Wall-1B	386.00		<p>This heavy-duty steel bracket enables up to 2 x Kobra (KK52 & KK102), Python (KP52 & KP102) or Kayman (KY102) loudspeakers to be vertically-mounted one-above-the-other on a wall and to be tilt and/or pan adjusted on-site. Also required are the extra-cost options of either:</p> <p>OPTION 1 - K-array ref K-PMOUNT: This bolts to the base of the loudspeaker and fits over a spigot attached to the mount to provide 360° horizontal pan adjustment. Loudspeaker's vertical alignment is fixed in the perpendicular. A second (same model only) loudspeaker can be mounted above the first using K-array's ref K-JOINT2. The second loudspeaker can then be vertically angled by ±15°. Note that stacked loudspeakers are horizontally adjusted in unison, not in relation to each other.</p> <p>OPTION 2 - K-array ref K-FOOT2 & ref K-JOINT2: K-JOINT2 bolts to the base of the loudspeaker and is attached to the K-FOOT2. K-FOOT2 fits over the mount's integral spigot. This combination provides both 180° horizontal pan and ±15° vertical adjustment. A second (same model only) loudspeaker can be mounted above the first using another K-JOINT2, to create up to a 2m high close-coupled line-array column. Independently of the first loudspeaker in the column, the second loudspeaker can also be vertically angled by ±15°. Note that stacked loudspeakers are horizontally adjusted in unison, not in relation to each other.</p>
Wall Bracket, KK, KP & KY White	2B-Wall-1W	430.00		
Wall Bracket, KK, KP & KY RAL	2B-Wall-1X	POA (price dependent upon RAL choice)		
Items listed below are K-array accessories. Trade-discount at your usual K-array rate				
Spigot-Mount adapter, basic	K-PMOUNT	119.00		Fit to bottom of KK, KP or KY loudspeaker to enable direct mounting on top of a 2B-Wall bracket. 360° horizontal adjustment - no vertical adjustment
Joining mechanism with adjustable vertical tilt	K-JOINT2	375.00		Fit to bottom of KK, KP or KY loudspeaker to enable attachment to K-FOOT2 (or to mount on top of second same-model loudspeaker). Integral thumb-wheel enables ±15° vertical tilt-adjustment
Spigot-Mount adapter for K-JOINT2	K-FOOT2	311.00		Fit to bottom of K-JOINT2 to enable direct mounting on top of a 2B-Wall bracket for both 360° horizontal pan and ±15° vertical tilt adjustments
